WALLPAPER MILL BURNED.

Historic Maryland Plant Destroyed by the Flames. ELKTON, Md., Dec. 20.-The Carter Pa-

per Milis, located on the Little Elk Creek, about five miles north of Elkton, operated by the McQuilkin & Carter Paper Company, of Cecil county, were destroyed by fire last night.

The fire originated in the boiler room

The fire originated in the boiler room by the explosion of an oil lamp, and in a short time spread to the adjoining buildings. The boiler room was the first to go, followed by the storeroom, in which was stored a large amount of stock, and next the machine shops. The beater mill was next threatened, but at a late hour it was thought this part of the plant could be saved. This building caught fire several times. When the fire was found to have gotten beyond control word was telephoned to Elkton for aid, but owing to the distance and the rough roads to be traversed by the fire engine, it was impossible to get to scene in time to be of any service.

any service.

The company is engaged in the manufacture of wallpaper, the plant being run on full time. A considerable stock of wallpaper was destroyed. The mill is nearly 169 years old, and was built by Robert Carter in 1816, and successfully operated for years by the late I. D. Carter. George McQuilken, of Elkton, is president of the present company operating the plant; Charles Carter, secretary and treasurer. The directors are Harry A. Carter, of the York Haven Paper Company, Robert D. Carter, of the Wanaque Paper Company, of New Jersey; George McQuilken, George McQuilken, ir., and Charles C. Carter. The loss will be heavy. heavy.

HOW TO BREAK UP A COLD. HOW TO BREAK UP A COLD.

"In the winter of 1898 and 1899 I was taken down with a severe attack of la grippe," says Mr. F. L. Hewitt, the well-known druggist of Winfield, Mo. "The only medicine I used was two bottles of (50-cent size) Chamberlain's Cough Remedy. It broke up the cold and stopped the cough like magic, and I have not since been troubled with la grippe." This remedy has become famous for its cures of bad colds and la grippe. Druggists use it themselves, and in their families, because it is the best. The Success and Popularity of the New Catarrh Cure.

New Catarrh Cure.

The remarkable success and popularity of the new catarrh cure, Stuart's Catarrh Tablets, is largely because it not only cures catarrh, but because catarrh sufferers who use these tablets know what they are taking into their systems; no secret is made of what they contain. They are composed of Hydrastin, blood root, gualiacol, and red gum, are pleasant to the taste, and being dissolved in the mouth they take immediate effect upon the mucous lining of the throat, nasal passages, and the whole respiratory tract.

SAVED SKATERS' LIVES.

Jersey Man Rescues Girls Who Broke Through the Ice. PATERSON, N. J., Dec. 20.-Cecilia Grimshaw, nineteen years old of 140 Gov. ernor Street, and Annie Handwerk, nine teen years old, of 5 Auburn Street, had a narrow escape from drowning in the river above the falls last evening. They were skating, broke through the ice, and disappeared in twenty feet of water. There were about two hundred skaters on the river at the time, but none of them knew what to do. One man tried to reach the girls from the shore. The ice would not sustain him, and when he was waist deep in water he retreated. A more daring

The cures that Stuart's Catarrh Tablets have accomplished in old chronic cases are little short of remarkable, and the advantage of knowing just what you are taking into your system is of paramount importance when it is remembered that the cocaine or morphine habit has been frequently contracted as the result of using secret catarrh reniedies, as so many of them are well known to contain these injurious drugs.

Stuart's Catarrh Tablets meet with the approval and cordial support of physicians because their antiseptic character renders them perfectly safe for the general public to use, and their composition makes them a common-sense cure for all forms of catarrhal trouble.

in water he retreated. A more daring max went out until he was up to his neck, breaking the ice as he proceeded.

It was then that Theodore Bower, ir., who has a boathouse near the place where the approached the girls were, got a ladder and a rope. He caught Miss Grimshaw, but her weight carried him and the ladder through the ice, and he was soon struggling beside the two girls. He is an expert swimmer and cool headed. He replaced the ladder on the rungs, so that she could not stip. He left her clinging to the ladder, and the rungs, so that she could not stip. He left her clinging to the ladder on the rungs, so that she could not stip. He left her clinging to the ladder, who was going down for the third time. The girl had been kept up by her skirts, and Bower now held her head out of the water until a rope was thrown to him, and he was daring the case he proceeded.

a rope was thrown to him, and he was dragged ashore with the unconscious girl With nearly all advertised catarrh cures it is a matter of guesswork as to what you are taking into the stomach, as the proprietors, while making all sorts of claims as to what their medicines will do, are very careful to keep it a close secret as to what they really contain.

This is one reason why Stuart's Catarrh Tablets have been so widely recommended, because they are not only pleasant and coavenient to take, but the patient also knows he is not putting into his stomach anything of an injurious character.

DIVORCES IN NEW JERSEY.

Chancellor Magie Decides Herenfter

Jersey, which is conducted by the Court of Chancery in a sort of star-chamber style. Since his assumption of the office the chancellor has devoted most of his time to a study of this phase of the court's work and has reached the conclusion that the conditions are very had. Outsiders generally consider New Jersey a comparatively easy State for the East in which to get divorces. The Chancery Court, however, has always denied this and has steadfastly insisted that no divorces are granted without a perfectly proper enquiry into the out a perfectly proper enquiry into the

out a perfectly proper enquiry into the case.

Alexander T. McGill, the late chancellor, was a believer in the secret divorce proceedings, and invariably ordered testimony to be taken in private by an advisory master, so as to protect the public from the details of the immoralities which are often involved in divorce cases.

Chancellor Magie announces that hereafter all divorce proceedings will be heard in public, and testimony will not be taken by an advisory master, as heretofore. This will mean a tremendous increase of the work of the court, probably 200 per cent. The old secret procedure has been severely criticised, and under it there was no means of estimating the number of divorces granted annually in the State. In some instances persons have learned of their divorce several years after it had been granted.

NEW BRUNSWICK, N. J., Dec. 20.—
New Jersey lawyers are deeply interested in the stand taken by Chancellor Magic concerning the divorce business in New Jersey, which is conducted by the Court of Chancery in a sort of star-chember evice.
